

MOUNTING SYSTEM FOR ROOF INTEGRATION

InterSole NEW

PRODUCT ADVANTAGES:

Ideally suited for integrating framed modules from all manufacturers and in all sizes into pitched roofs

Easy and fast installation

Modules can be installed horizontally or vertically

Safety and reliability ensured through TÜV certificate

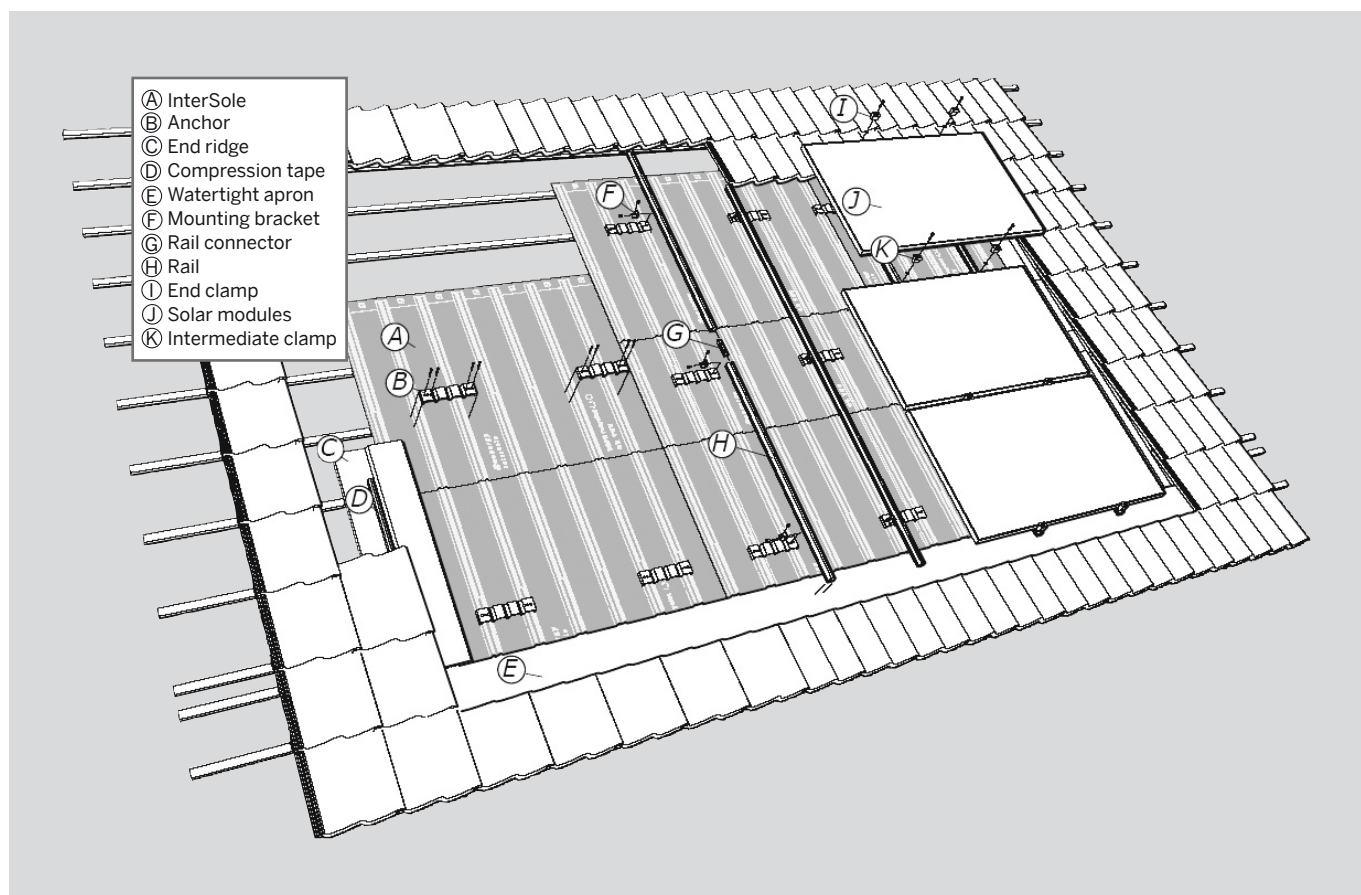

High-quality overlapping HDPE plastic plates for pitched roofs with a roof slope between 20° and 75°

Material made of 100 % chlorine-free recycled high-density polyethylene (HDPE)

Suitable for a permanent wind speed up to 115 km/h

10-year manufacturer's warranty
